

# EXPORT OV REQUIRED

An exciting opportunity has arisen for an Official Veterinarian to join our expanding Product Export Team here at Oakhill Vets

The role is based from our practice in Goosnargh near Preston and will involve certification of EHC's for products of animal origin in the surrounding area.

Ideally the successful candidate will have experience providing product certification and hold the relevant OCQ (V) export panels, but full training can be provided. As the position requires travel in the surrounding area a full driving license and own transport is required. Both full and reduced hours can be considered with a flexible working pattern available.

Applications to be received by 28th February 2021

Please email your CV and a covering letter to [export@oakhill-vets.com](mailto:export@oakhill-vets.com)
